

Work Environment Risk Policy

At Nova Åkeri AB, we recognize that the safety and health of our employees are of the highest priority. By proactively identifying, assessing, and managing work environment risks, we strive to create a safe and healthy work environment where every individual can feel secure and respected.

This policy expresses our commitment to minimizing the risks of accidents and injuries through a risk management strategy based on thoroughness, dedication, and employee involvement.

Identification of Work Environment Risks

We will conduct regular surveys and assessments to identify potential work environment risks within our operations. We welcome feedback from our employees and consider their insights invaluable in detecting and managing workplace risks.

Assessment of Work Environment Risks

All identified risks will be carefully assessed to determine their impact on employee health and safety. We commit to using this information to prioritize and design measures that protect and preserve the well-being of our employees.

Management of Work Environment Risks

We take responsibility for taking appropriate measures to minimize or eliminate identified work environment risks. This may include implementing technical solutions, improving work methods, providing training and awareness initiatives, and other relevant actions to ensure a safe work environment.

Continuous Monitoring and Evaluation

We are committed to continuously monitoring and evaluating the effectiveness of our measures to manage work environment risks. Through regular reviews and evaluations, we ensure that our risk management strategies are relevant, effective, and adapted to changes in our operations and the surrounding environment.

Employee Participation and Engagement

We actively encourage our employees to participate in the process of identifying, assessing, and managing work environment risks. We recognize that our employees' insights and experiences are invaluable assets in our efforts to create a safe and healthy work environment.
